

**Additional Disaster Supplemental Funding Needs
(Budget Authority in Whole Dollars)**

Appropriations Bill/Agency/Bureau/Account	Total	Description
TOTAL, DISASTER RESPONSE	16,144,324,726	
Agriculture, Rural Development, Food and Drug Administration	65,575,000	
<i>Department of Agriculture (USDA)</i>	<i>65,575,000</i>	
Agricultural Research Service		
Buildings and Facilities	14,500,000	This funding would be used to repair the U.S. Horticultural Research Laboratory in Ft. Pierce, Florida. There was widespread catastrophic damage to 37 bays of the main greenhouse complex, posing safety limitations for employees and regulatory compliance issues for stakeholder-driven, mission-critical research. Due to the severity of the damage, replacement is required for all 37 bays. Similar damage occurred to two greenhouses, two pump stations, and a filtration station at Picos Road Farm. Repair is required for these greenhouses and pump and filtration stations. Similar damage also occurred to greenhouses and a pesticide storage building at Whitmore Farm. Repair is required for one greenhouse and replacement is required for one greenhouse and pesticide storage building due to damage severity.
Office of Inspector General		
Office of Inspector General (OIG)	47,575,000	This funding would support OIG oversight of USDA supplemental funds.
Executive Operations		
Office of Chief Financial Officer (OCFO)	3,500,000	This funding would support OCFO oversight of USDA supplemental funds.
Commerce, Justice, Science, and Related Agencies	908,795,500	
<i>Department of Commerce</i>	<i>110,000,000</i>	
National Oceanic and Atmospheric Administration (NOAA)		
Operations, Research, and Facilities	10,000,000	This funding would address damage from Hurricanes Helene and Milton to NOAA facilities and partners across several States, including but not limited to roof repair, environmental remediation, and equipment repair and replacement.
Procurement, Acquisition and Construction	100,000,000	This funding would allow NOAA to replace its Beaufort, North Carolina lab and its Pascagoula, Mississippi pier. Both sites experienced hurricane damage, hindering critical NOAA research and operations. The lab is not operable, and pier operations, where NOAA homeports three ships, are extremely limited. Funding would also cover damages to some smaller NOAA assets that experienced damage from Hurricanes Helene and Milton.
<i>Department of Justice</i>	<i>64,795,500</i>	
Federal Prison System		
Buildings and Facilities	64,795,500	This funding would be used to repair Bureau of Prison facilities damaged by Hurricanes Helene and Milton. This includes roof repairs and replacement, and electrical work at eight facilities located in FL, GA, SC, and VA. It also includes funding to address facility damage caused by Hurricane Laura, and to complete repairs for Federal Correctional Institute Estill in SC which was damaged by a tornado in 2020.
<i>National Aeronautics and Space Administration (NASA)</i>	<i>734,000,000</i>	
Construction and Environmental Compliance and Restoration	554,000,000	This funding would be used to partially rebuild and restore a NASA satellite communications facility on Guam that was destroyed by Typhoon Mawar to restore communications with key NASA missions. This funding would also be used to repair and rebuild Federal facilities at NASA's Armstrong Flight Research Center in California that were damaged in 2023 by Hurricane Hilary. This funding would also be used to repair and rebuild NASA facilities damaged by disasters occurring in 2024, including: tornadoes in Mississippi that damaged the Stennis Space Center roofs; Hurricane Beryl that caused extensive damage to the Johnson Space Center in Texas; and Hurricane Milton where, in addition to building damage, dunes and offshore areas that protect launch pads at the Kennedy Space Center in Florida were heavily eroded.
Space Operations	180,000,000	This funding would be used to begin efforts to ensure the International Space Station does not fall uncontrolled to Earth after its retirement in 2030.
Defense	3,319,406,000	
<i>Department of Defense</i>	<i>3,319,406,000</i>	
Operation and Maintenance		
Operation and Maintenance, Army	451,894,000	This funding would be used to reimburse the Army for damages at West Point as well as to repair damage to various buildings, infrastructure, and aircraft at Fort Sill and Fort Carson. Funding is also provided for facilities restoration at various locations due to damage from Hurricanes Milton and Helene.
Operation and Maintenance, Navy	1,454,153,000	This funding would be used by the Navy for repair or reimbursement of various structures and facilities damaged by: Typhoon Mawar in Guam; Hurricanes Milton, Helene, Ian, Nicole, and Idalia in Florida; and severe storms in Tennessee.
Operation and Maintenance, Air Force	912,778,000	This funding would be used by the Air Force for reimbursement or to repair various structures and facilities in Guam damaged by Typhoon Mawar and other facility damage caused by Hurricanes Milton and Helene.

Appropriations Bill/Agency/Bureau/Account	Total	Description
Operation and Maintenance, Space Force	90,230,000	This funding would be used by the Space Force for reimbursement or to repair various structures and facilities in Guam damaged by Typhoon Mawar and to repair other facilities damaged by Hurricanes Milton and Helene.
Operation and Maintenance, Army National Guard	26,065,000	This funding would be used by the Army National Guard for reimbursement of repairs to various structures and facilities in Guam damaged by Typhoon Mawar and to repair other facilities damaged by Hurricanes Milton and Helene and other storms.
Operation and Maintenance, Air National Guard	2,209,000	This funding would be used by the Air National Guard for reimbursement of repairs to various structures and facilities in Guam damaged by Typhoon Mawar and to repair other facilities damaged by Hurricane Helene.
Operation and Maintenance, Air Force Reserve	1,319,000	This funding would be used by the Air Force Reserve for reimbursement of repairs to various structures and facilities in Guam damaged by Typhoon Mawar and to repair other facilities damaged by Hurricanes Milton and Helene.
Operation and Maintenance, Army Reserve	36,594,000	This funding would be used to reimburse the Army Reserve for damages at Fort Carson. Funding would also be used for facilities restoration at various locations due to damage from Hurricanes Milton and Helene.
Operation and Maintenance, Marines	7,150,000	This funding would be used by the Marines to repair various structures damaged by Hurricanes Milton and Helene.
Defense Health Program	17,362,000	This funding would be used to repair damages to Defense Health Program facilities caused by Hurricanes Milton and Helene.
Operation and Maintenance, Defense-wide	1,208,000	This funding would be used to repair various structures damaged by Hurricanes Milton and Helene.
Procurement		
Procurement of Ammunition, Army	81,200,000	This funding would be used by the Army for repairs to the Radford, Virginia Army Ammunition Plant because of Hurricane Helene damage.
Procurement, Space Force	37,994,000	This funding would be used for reimbursement and repair of Government structures and facilities damaged by Typhoon Mawar.
Other Procurement, Air Force	129,722,000	This funding would be used to repair various structures and facilities in Guam damaged by Typhoon Mawar.
Research, Development, Test and Evaluation		
Research, Development, Test and Evaluation, Air Force	69,278,000	This funding would be used to repair various structures and facilities in Guam damaged by Typhoon Mawar.
Research, Development, Test and Evaluation, Space Force	250,000	This funding would be used to reimburse the Space Force for repairs to facilities in Guam damaged by Typhoon Mawar.
Energy and Water Development and Related Agencies	85,899,000	
Department of Energy	64,299,000	
Energy Programs		
Strategic Petroleum Reserve	60,000,000	This funding would be used to address facility and property damage to the Bryan Mound site by Hurricane Beryl (July 2024) and the physical security systems at the West Hackberry site, which sustained damage during Hurricanes Laura and Delta in 2020.
National Nuclear Security Administration		
Weapons Activities	1,884,000	This funding would be used to address facility and property damage to the Savannah River Site by Hurricane Helene. Activities would include removal of thousands of downed trees from roadways, restoration of downed power lines, and repair of roofs, HVAC systems, windows, fences, and other property.
Environmental and Other Defense Activities		
Defense Environmental Cleanup	2,415,000	See description directly above.
Department of the Interior	21,600,000	
Bureau of Reclamation		
Water and Related Resources	21,600,000	This funding would be used to repair Bureau of Reclamation facilities damaged by flooding, landslides, and mudslides in California and to repair facilities damaged by fire in New Mexico.
Financial Services and General Government	8,180,809	
General Services Administration (GSA)	8,180,809	
Real Property Activities		
Federal Buildings Fund	8,180,809	This funding would be used to repair GSA structures damaged by Hurricanes Helene and Milton, and includes the tenant improvement costs of the agencies occupying the GSA facilities as well as the GSA operating costs associated with the disaster and immediate aftermath.

Appropriations Bill/Agency/Bureau/Account	Total	Description
Homeland Security	257,337,000	
<i>Department of Homeland Security</i>	<i>257,337,000</i>	
United States Coast Guard		
Procurement, Construction, and Improvements	158,500,000	This funding would be used to repair structures at multiple Coast Guard sites including units in Alabama, Georgia, Guam, Florida, Texas, New York, and New England which were impacted by rain and wind damage during recent disasters.
Operations and Support	23,000,000	This funding would be used to conduct necessary repairs of shore facilities and support environmental remediation projects in the wake of disasters such as Hurricane Helene.
Federal Law Enforcement Training Centers (FLETC)		
Procurement, Construction, and Improvements	15,837,000	This funding would be used to repair structures at FLETC's Glynco, Georgia training facility that were damaged by Hurricanes Idalia, Debby, and Helene.
Federal Emergency Management Agency (FEMA)		
Operations and Support	60,000,000	This funding would recapitalize the equipment stores for Urban Search and Rescue Teams established throughout the Nation.
Interior, Environment, and Related Agencies	9,608,146,827	
<i>Department of Agriculture</i>	<i>6,214,000,000</i>	
Forest Service		
Capital Improvement and Maintenance	3,752,000,000	This funding would be used to repair and rebuild Federal facilities and roads damaged due to Hurricane Helene and other snow, rain, fire, flooding, hurricane, and tornado events throughout the National Forest System.
Forest and Rangeland Research	26,000,000	This funding would be used to re-establish and survey Forest Inventory and Analysis plots damaged as a result of Hurricane Helene.
Forest Service Operations	1,265,000,000	This funding would be used to repair and replace Forest Service radio towers and communication sites damaged as a result of Hurricane Helene.
National Forest System	1,070,000,000	This funding would be used to address impacts to National Forests from Hurricane Helene. This funding would support re-establishing boundary lines, removing hazardous material and waste debris, removing hazard trees, salvaging timber, and conducting vegetation management actions.
State and Private Forestry	101,000,000	This funding would provide technical assistance to local, State, and tribal governments for forest stewardship, urban and community forestry, forest health protection, and State and volunteer fire assistance.
<i>Department of the Interior (DOI)</i>	<i>3,391,786,827</i>	
Bureau of Land Management		
Management of Lands and Resources	76,115,000	This funding would be used to rebuild Federal offices, employee housing, roads, and other assets damaged as a result of flooding, landslides, and mudslides in Alaska.
United States Fish and Wildlife Service		
Construction	581,057,827	This funding would be used to repair and rebuild Federal facilities and roads damaged due to flooding, landslide, and mudslide events caused by severe weather, record snowpack, and spring rain events in California, Colorado, Minnesota, North Dakota, Iowa, Rhode Island, Nevada, and Illinois. This funding would also repair Federal facilities that suffered water damage as a result of Typhoon Mawar in Guam, Hurricane Idalia impacts in Florida and South Carolina, and Hurricane Beryl in Texas. Funding would also repair and rebuild Federal facilities and roads due to recent damages from Hurricanes Helene and Milton in Florida, South Carolina, Tennessee, Illinois, Indiana, Georgia, Kentucky, and Alabama.
National Park Service		
Construction	2,262,871,000	This funding would be used to repair and rebuild Federal facilities, roads, and other assets damaged as a result of severe snowstorms in California, fires in Washington State, tornadoes in Oklahoma, and severe storms on the East Coast in particular in Maine, earlier this year. Funding reflects updated estimates to address damages as a result of Hurricane Hilary in California, and recent damages from the Windy Deuce fire in Texas, and Hurricanes Helene and Milton in Florida, North Carolina, South Carolina, Tennessee, and Georgia. The request includes \$1.7 billion for repairs and rebuilding of the Blue Ridge Parkway and associated facilities.
United States Geological Survey		
Surveys, Investigations, and Research	2,743,000	This funding would be used to repair or replace streamgages and seismic monitoring stations damaged in Hurricane Helene in Florida, Georgia, North Carolina, South Carolina, and Tennessee and to restore data lost while the streamgages were offline.

Appropriations Bill/Agency/Bureau/Account	Total	Description
Bureau of Indian Education (BIE) Education Construction	153,000,000	This funding would support the completing construction of the BIE To'Hajiilee Community School affected by severe flooding in 2022 and partially funded in a previous disaster supplemental. The additional resource need is based on construction design estimates made in consultation with the Tribe and updated standard estimates for inflation over the duration of construction.
Departmental Offices Departmental Operations	300,000,000	<p>This funding would support coordinated restoration efforts managed through the National Fish and Wildlife Foundation, which has extensive experience administering Federal emergency funds and can work quickly with their broad partner network of State and local government entities and non-governmental organizations.</p> <p>This funding would also address sustained environmental disaster damages at DOI refuge areas, national parks, and public lands across Alabama, Florida, Georgia, Illinois, North Carolina, Indiana, Kentucky, South Carolina, and Tennessee, including the need for habitat restoration and invasive species management efforts.</p>
Office of Inspector General Office of Inspector General (OIG)	16,000,000	This funding would be used to support OIG oversight of DOI supplemental funds.
Environmental Protection Agency (EPA)	2,360,000	
Environmental Programs and Management	2,360,000	<p>This funding would support EPA's Region 4 Office in managing hazardous materials and debris management grants. These grants would provide vital resources to States for the safe and proper management of the enormous amount of debris generated from Hurricanes Helene and Milton. Managing the grants requires funding for staff to ensure that Federal funding has the greatest impact.</p> <p>Funding would also support EPA's Office of Enforcement and Compliance Assurance to support communications and special agents for public safety and security in the wake of Hurricanes Helene and Milton. Funding would also enable the Office of Air and Radiation to support engagement with public health officials and public health messaging to mitigate air quality impacts and ensure that impacted communities are not further harmed as a result of cleanup efforts.</p>
Labor, Health and Human Services, Education, and Related Agencies	18,075,000	
Department of Labor	18,075,000	
Employment and Training Administration Job Corps	18,075,000	This funding would be used to repair Job Corps facilities and land assets that were damaged due to flooding as a result of Hurricanes Milton and Helene. This funding would support repair and restoration efforts, including water damage mitigation, hazard tree mitigation, and roof and electrical repairs, at nine Job Corps centers in North Carolina, Tennessee, Virginia, Kentucky, Florida, and Georgia.
Military Construction, Veterans Affairs, and Related Agencies	1,831,909,590	
Department of Defense	1,765,148,000	
Military Construction		
Military Construction, Navy and Marine Corps	1,127,281,000	This funding would be used by the Navy to support the construction, planning, and design of replacement infrastructure damaged by Typhoon Mawar.
Military Construction, Air Force	487,300,000	This funding would be used by the Air Force to support planning and design activities required to replace infrastructure destroyed by Typhoon Mawar.
Military Construction, Army National Guard	21,000,000	This funding would be used by the Army National Guard to replace facilities destroyed by severe storms.
Family Housing		
Family Housing Construction, Navy and Marine Corps	27,399,000	This funding would be used by the Navy to support the planning and design of family housing needed to aid in the recovery from Typhoon Mawar.
Family Housing Operation and Maintenance, Navy and Marine Corps	102,168,000	This funding would be used by the Navy to aid in the recovery from Typhoon Mawar.
Department of Veteran Affairs (VA)	66,761,590	
Veterans Health Administration (VHA)		
Medical Facilities	44,818,118	This funding would be used by the VA to replace or repair VHA medical facilities destroyed by Hurricanes Helene and Milton.
Medical Support and Compliance	9,963,129	This funding would be used by VHA for supplies (fuel and water), portable dental units, food, dumpsters, and cleaning in support of the response to Hurricanes Helene and Milton.
Medical Services	5,267,892	This funding would be used by VHA for overtime (OT) and travel (not related to a FEMA mission assignment), in support of the response to Hurricanes Helene and Milton.

Appropriations Bill/Agency/Bureau/Account	Total	Description
Departmental Administration		
Construction, Major Projects	4,000,000	This funding would be used by the VA to replace or repair Veterans medical facilities damaged or destroyed by Hurricanes Helene and Milton.
Construction, Minor Projects	2,019,773	This funding would be used by the VA to replace or repair Veterans Benefits Administration and National Cemetery Administration facilities damaged or destroyed by Hurricanes Helene and Milton.
National Cemetery Administration (NCA)	692,678	This funding would be used by NCA for: OT; tree contracts; door, gate, and antenna repair; and cleanup in response to Hurricanes Helene and Milton.
Transportation, Housing and Urban Development, and Related Agencies	41,000,000	
<i>Department of Transportation</i>	<i>41,000,000</i>	
Federal Aviation Administration (FAA)		
Facilities and Equipment	41,000,000	This funding would be used for replacement and repair of damaged FAA air traffic control facilities and equipment in Florida, Georgia, South Carolina, North Carolina, Virginia, and Kentucky. Storm damage affected navigational, terminal, weather, communication, power, and unstaffed facility assets.
Operations	[4,800,000]	FAA estimates additional overtime, travel, contract support, and parts expenses will be incurred in conjunction with recovery and repair efforts. FAA has balances from prior Hurricanes that could be repurposed to cover these costs. However, legislation is required.
